INCORPORATED 1872

MOLINE WAGON COMPANY

MANUFACTURERS OF

**Farm & Mountain Wagons, Trucks,
Teaming Gears & One Horse Wagons.**

MOLINE, ILL., U.S.A. Mar. 17, 1904

Messrs. Southern Foundry Co.

Owensboro, Ky.

Gentlemen:-

We note yours of the 15th. It is our intention to rebuild several of our departments. We have plans drawn at this time for a new blacksmith shop. However in view of the fact of high prices of material, the unsettled labor situation and other causes, we have decided to postpone any extensive improvements this year at least.

We desire to inform you that the material we purchased from you for our factory building erected last year is entirely satisfactory. The iron you furnished came up to our specifications in every detail, your deliveries were as prompt as could be expected and your treatment all that we could desire. You may rest assured that when we are again in the market for anything in your line, we will give you an opportunity of figuring with us.

Yours truly,

*Moline Wagon Co.
E. A. Roschfield Pres.*

p. 10

THE Little Giant among the Progressive Manufacturing Cities of the South, enjoys peculiar advantages for supplying her numerous productions to the people in every part of the continent. This beautiful city is surrounded by the great Iron, Coal and Lumber districts of the South, and her Railroads are kept busy distributing the products of her large manufactories, North, South, East and West, to all parts of the earth.

THE SOUTHERN FOUNDRY COMPANY

has the distinction and the great advantage of possessing the choicest and best shipping and manufacturing location in this busy city. Three great railroad systems; the Illinois Central R. R. Co., the Louisville & Nashville Railway Company and the "Texas" R. R. System, have cars loading and unloading daily upon the switches which run to the yards and buildings of the Southern Foundry Co. No such excellent shipping facilities are possessed by any other manufacturers of Store Fronts and Architectural Iron Work in the country. Freight rates on Southern Iron and Coke are cheaper to Owensboro than to any point north of the Ohio River. This gives the SOUTHERN FOUNDRY Co. a great advantage, and has enabled them to place their productions in many of the large cities of the land, and in towns and small cities everywhere.

STORE FRONTS

A look through this catalogue will show that the SOUTHERN FOUNDRY Co. has designed a line of Store Fronts in which are embodied the latest and best ideas in architecture of business buildings. Progressive people have relegated to the scrap heaps of history the styles of store buildings that our ancestors used, and have found that it pays, no matter what size town or city they are located in, to fit their store fronts with beautiful and attractive show windows, and such substantial and handsome super-structure as the SOUTHERN FOUNDRY Co. is furnishing to merchants all over the land.

You are invited to join the number of satisfied people who are putting dollars in their pockets by using up-to-date ideas in "Southern" Store Fronts. Before you build write for Special Plans, to

SOUTHERN FOUNDRY COMPANY,

Owensboro, Kentucky, U. S. A.

SOUTHERN FOUNDRY CO., OWENSBORO, KY.

BRICK FRONT, No. 210

An excellent design for lodge and store rooms, or combined store and offices or residence. We will quote on cast iron sills, lintels and columns, the galvanized iron lintel cornice, window caps, main cornice and pediment, and all the wood work and glass in the front. Give measurements of proposed building when writing for prices.

OUR PRICES ARE THE LOWEST.

SOUTHERN FOUNDRY CO., OWENSBORO, KY.

BRICK FRONT, No. 211.

This design shows cast iron sash in first story. This is one of the finest arrangements of modern fire-proof store fronts. We can also quote wood sash for this front if desired. When sending measurements for estimates, give us the width of building outside the walls, and the height of stories; also state any special features required. We will quote everything shown in this front, except the brick.

OUR SHIPPING FACILITIES ARE THE BEST.

SOUTHERN FOUNDRY CO., OWENSBORO, KY.

BRICK STORE FRONTS, No. 212.

This illustration shows a two-story brick block of three stores, with middle door straight and the other doors recessed. This arrangement can be altered to suit. A corner show window is shown, which may be omitted. We can quote on everything shown except the brick, including either plate or double strength glass for show windows. Write for prices.

WE CARRY A LARGE STOCK OF COLUMNS, SILLS, ETC. ON HAND.

SOUTHERN FOUNDRY CO., OWENSBORO, KY.

DOUBLE BRICK STORE AND OFFICE FRONTS, No. 213.

This is the most convenient arrangement for two-story store and office buildings. The second story can be used most conveniently for residence or lodge rooms. The front wall is carried by steel girders, which are covered with galvanized iron lintel cornice. The cornice may be omitted if desired. The ornamental sash columns, which cover the corners or show windows, protect the wood work from injury. This is one of the best standard fronts.

WE MAKE PROMPT SHIPMENT OF ALL ORDERS.

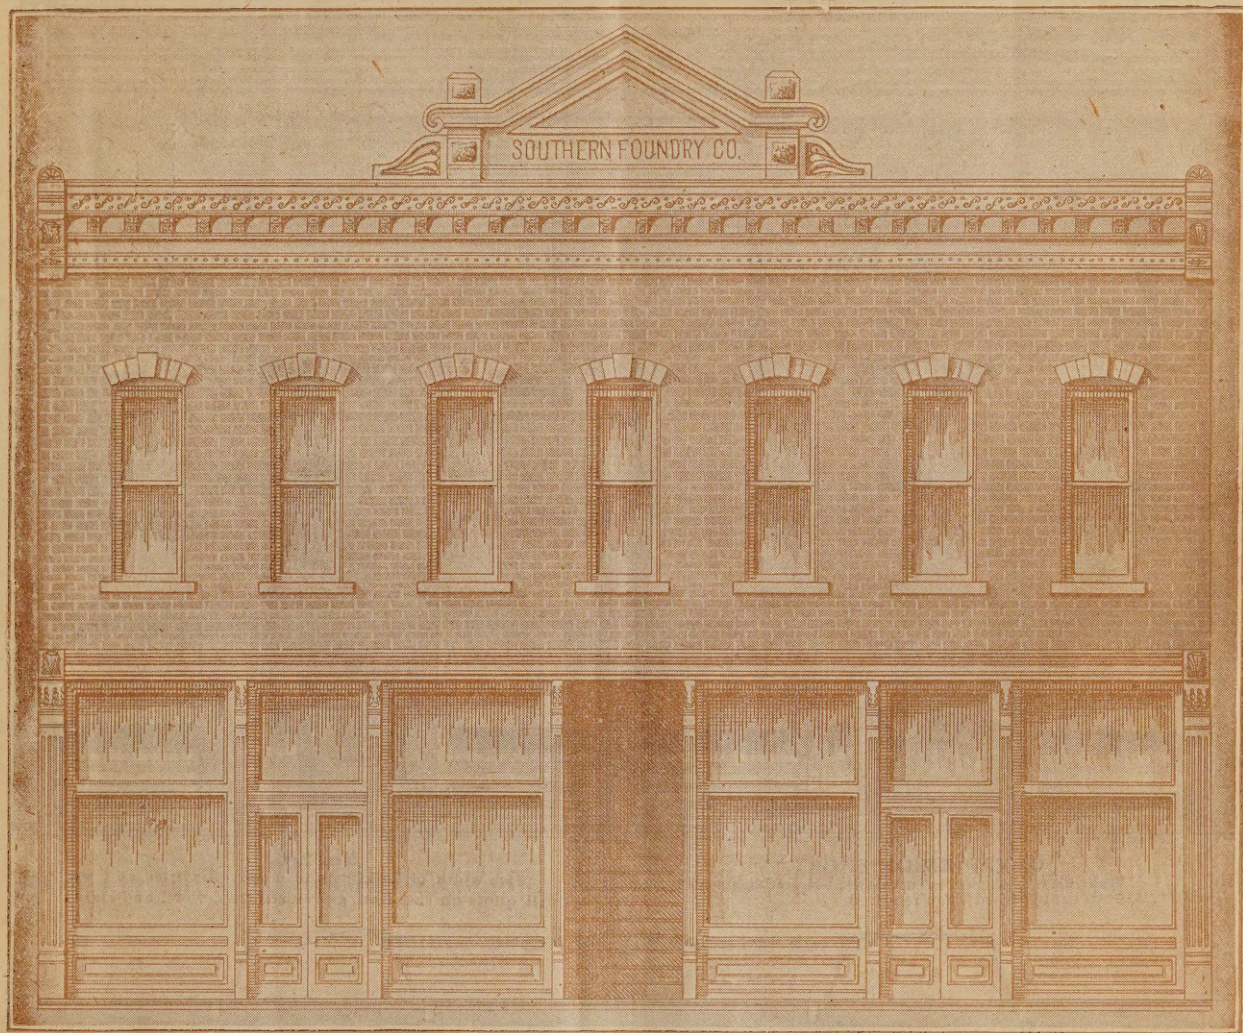

DOUBLE BRICK STORE FRONT, No. 214.

This front presents a very pleasing appearance, and we unhesitatingly recommend it to parties who want a neat, showy building. The recessed doors can be arranged with gas pipe protecting columns, as shown, or with cast iron supporting columns. We will quote on everything shown except the brick. Show windows can be arranged for double strength glass if preferred to plate.

WE CARRY STEEL BEAMS IN STOCK.

SOUTHERN FOUNDRY CO., OWENSBORO, KY.

DOUBLE BRICK FRONT, No. 215.

This front shows straight doors, but we can also quote them recessed, if desired, and can also arrange the show windows for double strength glass. Give us the width of proposed building and the height of stories, and we will quote best prices on all the iron work, wood, glass and galvanized iron.

WE SHIP TO ALL POINTS IN THE UNITED STATES.

10

SOUTHERN FOUNDRY CO., OWENSBORO, KY.

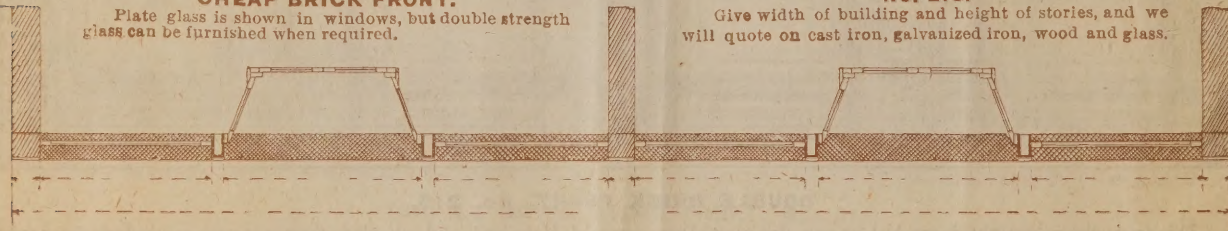

CHEAP BRICK FRONT.

Plate glass is shown in windows, but double strength glass can be furnished when required.

No. 216.

Give width of building and height of stories, and we will quote on cast iron, galvanized iron, wood and glass.

This is one of our most popular standard low-priced brick fronts. It presents a very handsome appearance, and does not fail to give satisfaction. A pediment with sign space may be added, or any desired change made in the arrangement.

WE ARE CLOSE TO THE COAL AND IRON FIELDS.

DOUBLE BRICK STORE FRONTS, No. 217

This is a good front, with wide stairway and recess doors. The cast iron sash columns at corners of recesses form a protection for woodwork and are quite ornamental. If it is desired to use double strength glass instead of plate, the show windows can be arranged for same. The galvanized iron cornice, pediment and window caps are of neat and correct patterns. The entire front has a very substantial appearance.

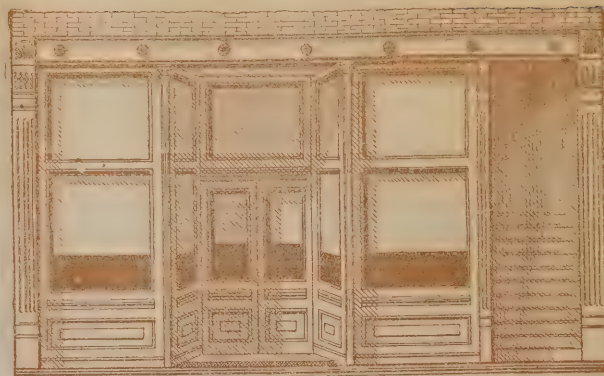

OUR TERRITORY IS THE ENTIRE UNITED STATES.

SOUTHERN FOUNDRY CO., OWENSBORO, KY.

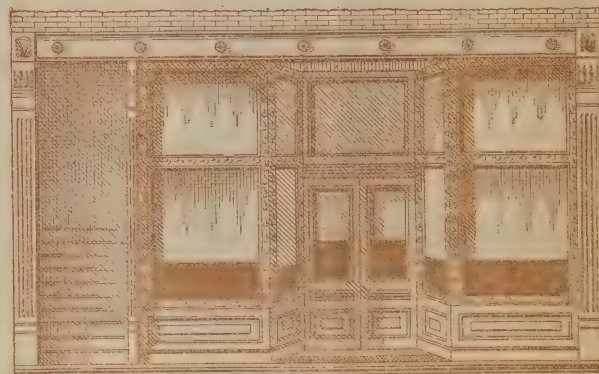

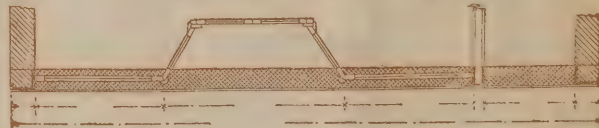

No. 213.

Recess, with cast iron columns.

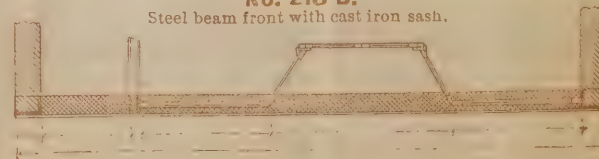

No. 218 A.

Steel Beam Front with all wood sash.

No. 218 B.

Steel beam front with cast iron sash.

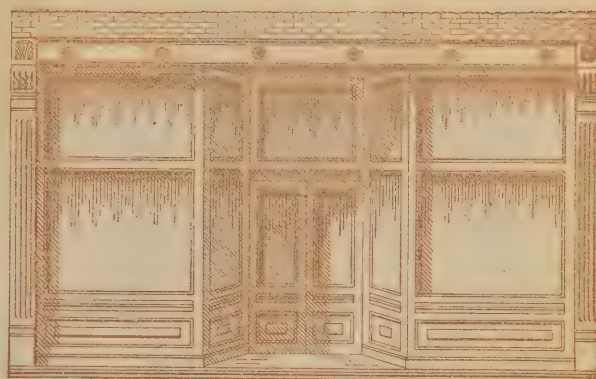

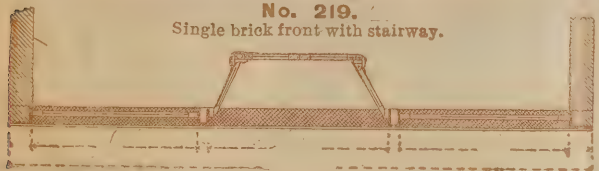

This single brick front, with recess doors, is one of our most popular styles. The front wall is carried by cast iron columns and cast iron lintels. The alternate first story designs show how variations in arrangement may be made. The No. 218 B arrangement makes one of the best modern fire-proof fronts.

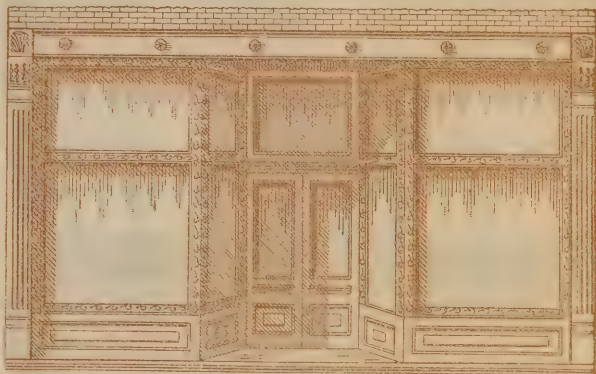

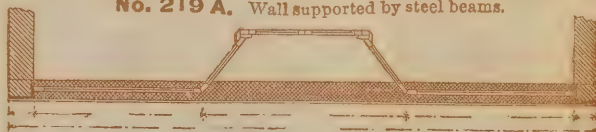

OUR EQUIPMENT IS THE FINEST IN THE COUNTRY.

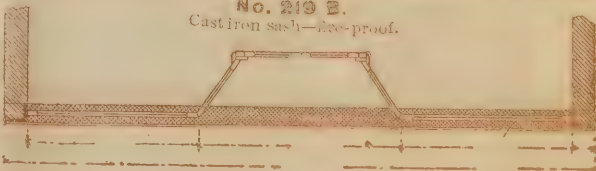

No. 219.
Single brick front with stairway.

No. 219 A. Wall supported by steel beams.

No. 219 B.
Cast iron sash—free-proof.

This arrangement of a single two-story brick front, with stairway, is one of the handsomest and most convenient fronts in our line. The terra-cotta belt courses relieve the plainness of the brick front without giving it a cheap or gaudy appearance. The first story variations, A. and B., show how the front can be arranged to suit any taste.

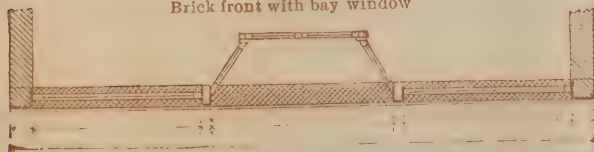

THOSE WHO HAVE "SOUTHERN" FRONTS ARE ALWAYS SATISFIED.

SOUTHERN FOUNDRY CO.. OWENSBORO, KY.

No. 220.

Brick front with bay window

No. 221.

Brick front with corner show window

These elegant fronts have cast iron sash in first story, of latest city style, and they have just enough ornamental work to give the most substantial and respectable appearance. All material is of the very best, and of correct style and proportion. No mistake will be made in selecting either of these Art Fronts.

OUR DESIGNS ARE NEW AND UP-TO-DATE.

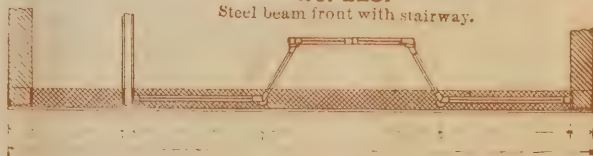

No. 222.

Straight brick front with stairway.

No. 223.

Steel beam front with stairway.

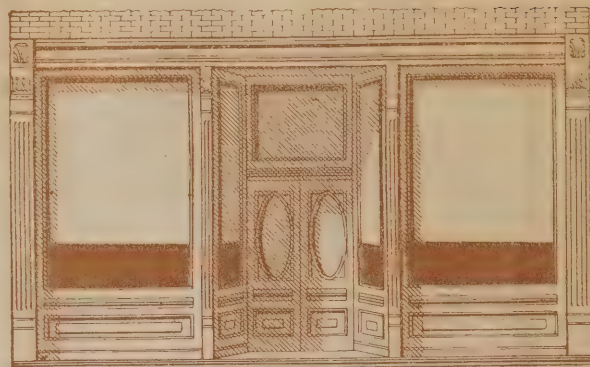

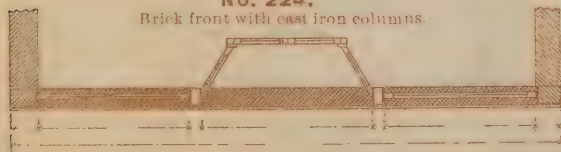

These are plain brick fronts, but the handsome cornices and imitation stone window caps add sufficient ornamentation to make very pleasing designs. Any desired change can be made in the arrangement of either fronts. Send measurements and get our figures.

WE FURNISH EVERYTHING IN THESE FRONTS EXCEPT THE BRICK.

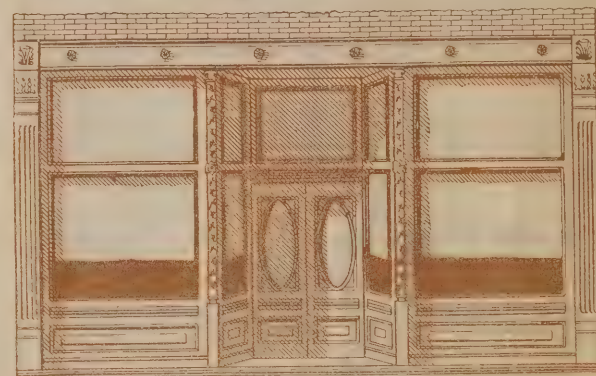

SOUTHERN FOUNDRY CO. OWENSBORO, KY.

**No. 224.**

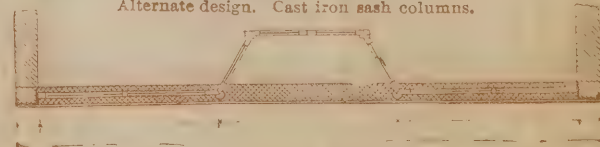

Brick front with cast iron columns.

**No. 224 A.**

Alternate design. Full length plate glass.

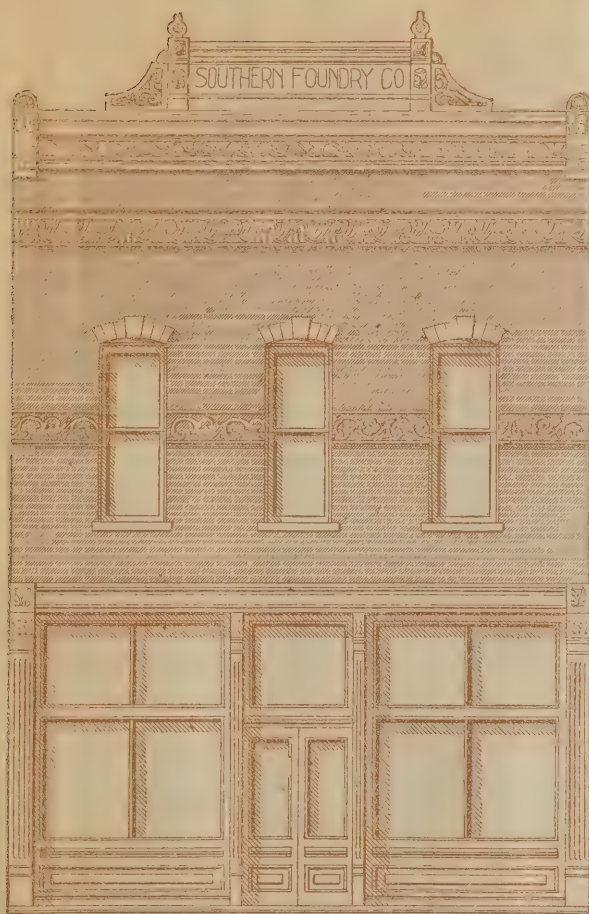

**No. 224 D.**

Alternate design. Cast iron sash columns.

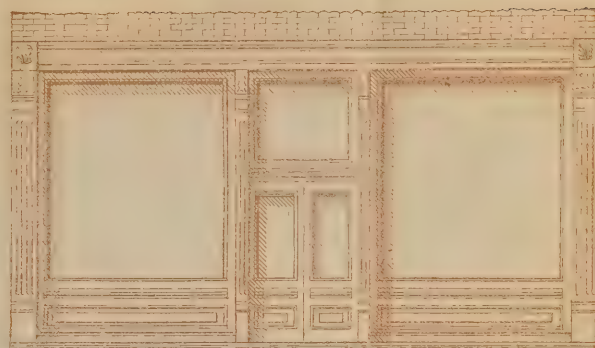

The variations in arrangement of plain brick fronts, shown in our designs, is one of the causes of their great popularity. They are flexible, and their adaptability to any taste make it easy for every person to find among them the very thing desired. If anything about them does not please, they are easily changed to suit.

LOOK OVER OUR LINE OF STEEL CEILINGS.

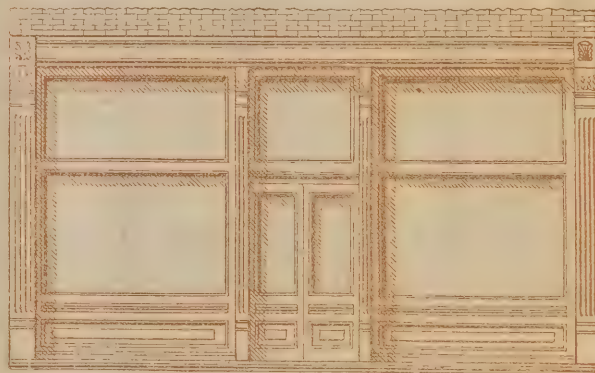

No. 223.

Brick front with straight doors.

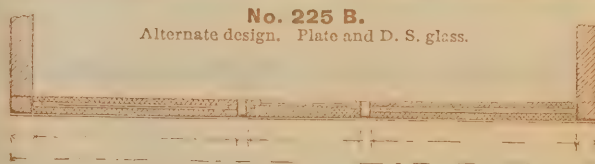

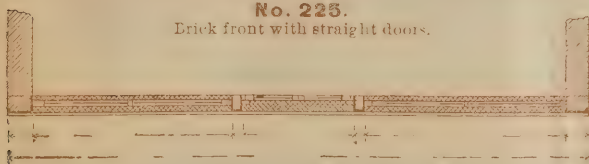

No. 225 A.

Alternate design. Full length plate glass.

No. 225 B.

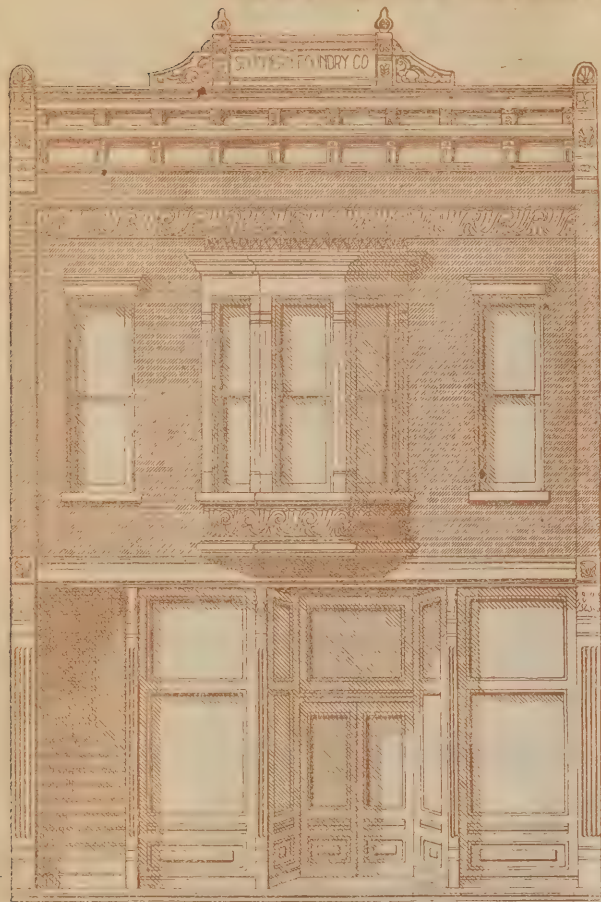

Alternate design. Plate and D. S. glass.

Where straight doors are wanted, this front cannot fail to please. Show windows with double strength glass are shown, while the alternate designs will indicate that we can give this elegant front all the style desired, making it to fit any sized bank account.

BE CAREFUL IN SENDING MEASUREMENTS FOR ESTIMATES.

SOUTHERN FOUNDRY CO., OWENSBORO, KY.

No. 226.

Brick front with bay window.

No. 227.

Brick front with corner entrance.

When writing for estimates, be very careful in giving measurements, so that no mistakes will be made. Give the width of the building outside the walls, and the height of stories. Then make a rough pencil sketch of the plan of doors and show windows desired, and state which design in catalogue is preferred. We will then be able to quote accurately, and when necessary, can get up correct blue print drawing.

OUR STYLES ARE THE NEWEST AND MOST CORRECT.

No. 228.

Brick Front with cut-off corner.

No. 229.

Brick Front with recessed doors.

These two elegant fronts show how variations can be made from our regular designs to suit any taste. The cut-off corner is much used for bank and professional office buildings. The convenience of buying all the material required for a front, except the brick, from one place, is appreciated by all. The detail drawings which we send with our fronts are simple and plain, and enable the most inexperienced builder to erect the work without trouble.

WE HAVE PLANS AND STYLES TO SUIT EVERY TASTE.

SOUTHERN FOUNDRY CO., OWENSBORO. KY.

No. 230.

No. 231

No. 232

BLOCK OF BRICK STORE FRONTS WITH STRAIGHT AND RECESSED DOORS.

Any of the two-story fronts shown in previous pages can be arranged for one-story building. There is in fact no limit to the variety of fronts that can be produced from our designs.

No. 233

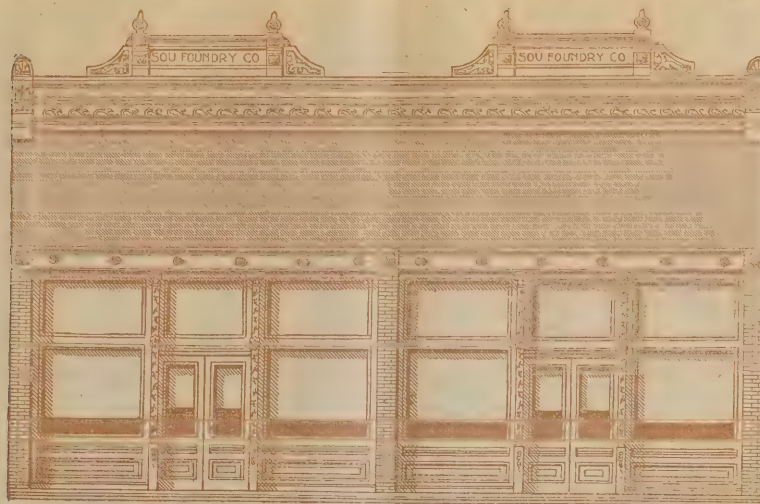

No. 234

No. 235

BLOCK OF BRICK STORE FRONTS WITH SIDE AND CENTER ENTRANCES.

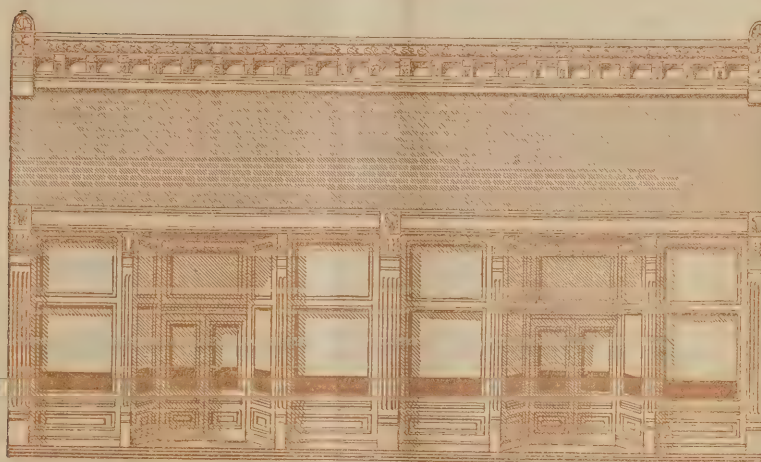

These fronts have a steel beam girder to carry the front brick work and ornamental cast iron sash columns at the corners of recessed doors. The show windows may be arranged for plate or double strength glass. The cornice of galvanized iron makes a neat finish to the front.

NO ORDER IS TOO SMALL TO RECEIVE OUR BEST ATTENTION.

No. 236.

Brick front with steel beams and cast columns.

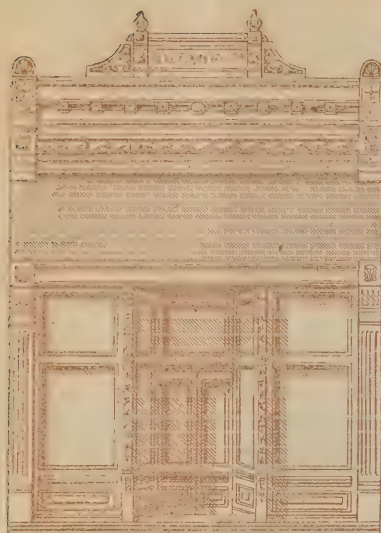

No. 237.

Brick front with cast iron columns and recess doors.

Special drawings will be furnished, on application, for any arrangements for blocks of buildings or double stores of latest and best styles.

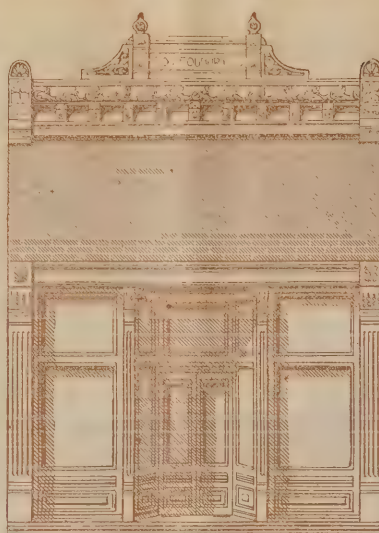

NO ORDER IS TOO LARGE FOR US TO HANDLE.

SOUTHERN FOUNDRY CO., OWENSBORO, KY.

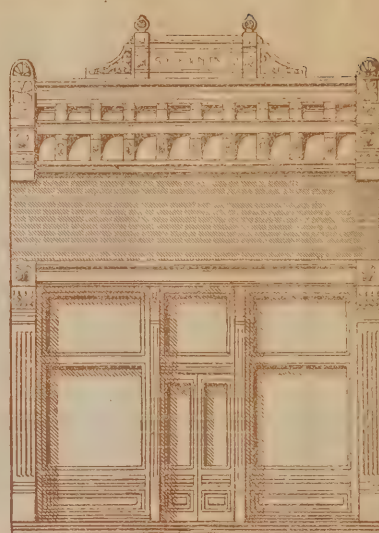

No. 238.

Brick front with cast columns.

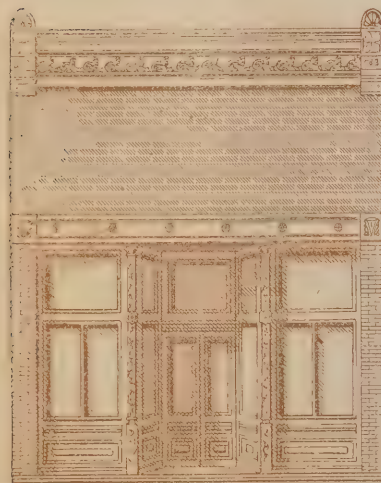

No. 239.

Brick front with recess doors.

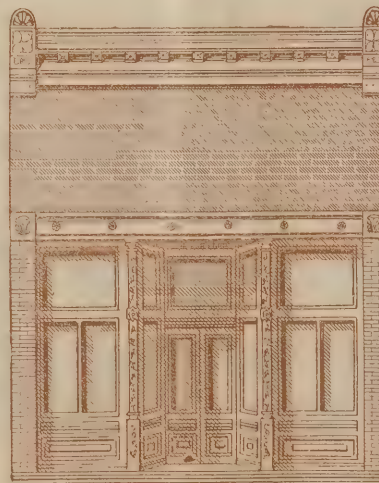

No. 240.

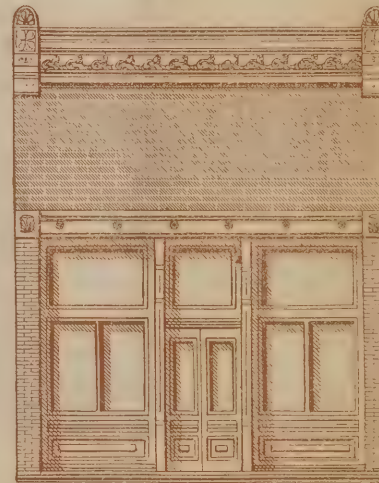

Brick front with straight doors.

No. 241.

No. 242.

No. 243.

A series of cheap brick fronts. Any of these fronts can be furnished either with cornices or without, and the arrangement of doors and show windows can be changed to suit. These are the handsomest fronts on the market at the price.

OUR MAIL ORDER SYSTEM ENABLES US TO MAKE LOW PRICES.

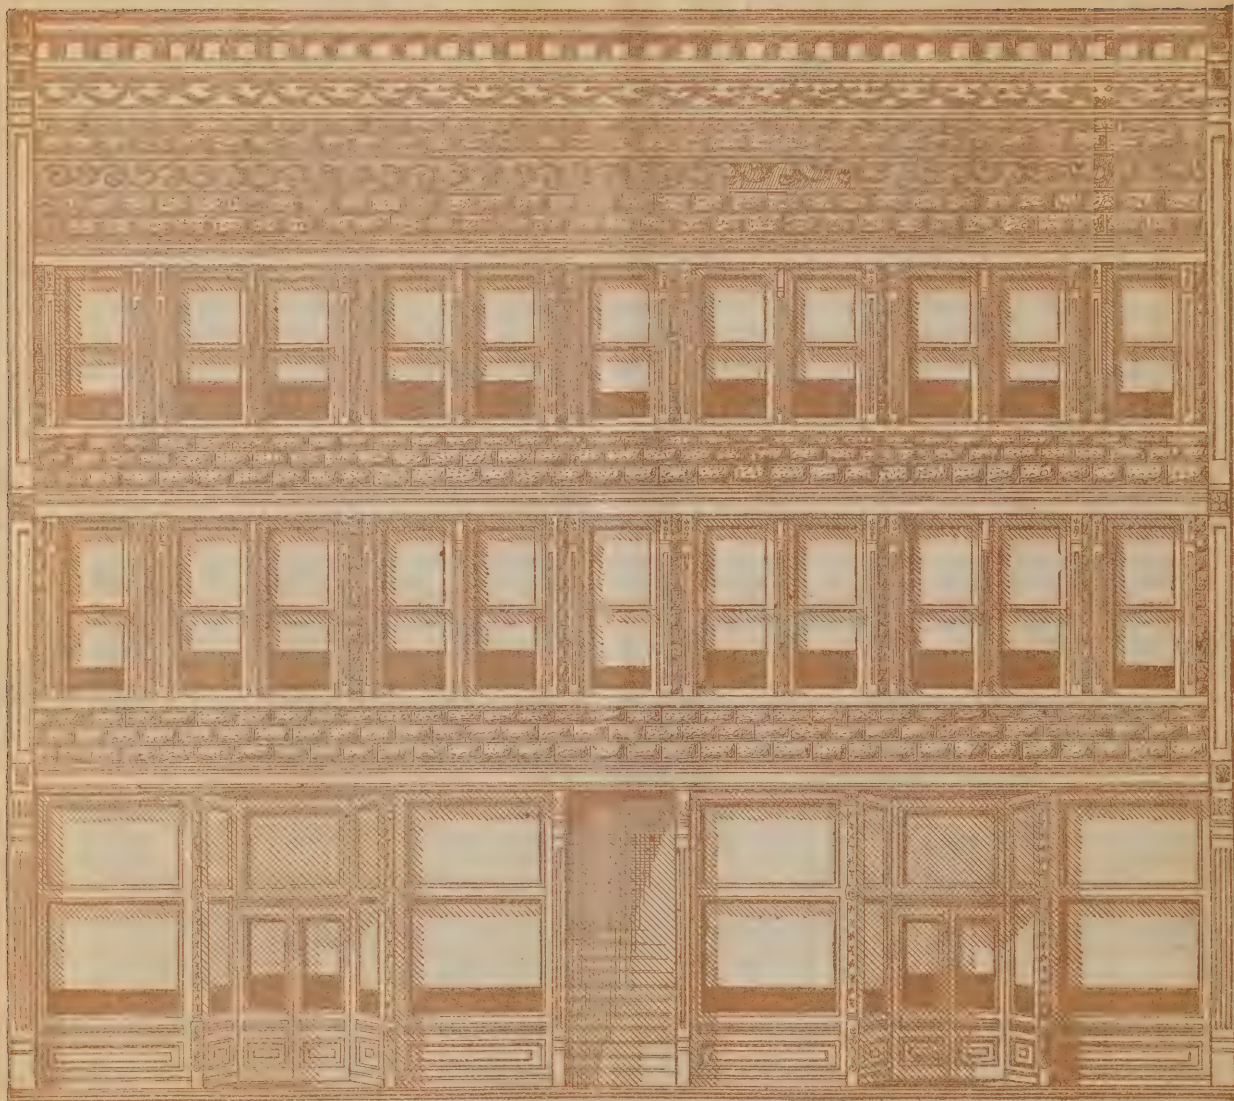

No. 244.

Elegant Steel, Iron, Brick and Terra Cotta Double Store Front.

This arrangement of complete iron sash for show windows and transoms, is the latest and best of city styles in store architecture. Our patterns for this work are of the most elegant description, and our castings show all carvings distinct and clear. This is a marked difference from the dim suggestion of carvings upon the fronts of many other firms. This is one of the finest fronts in the market.

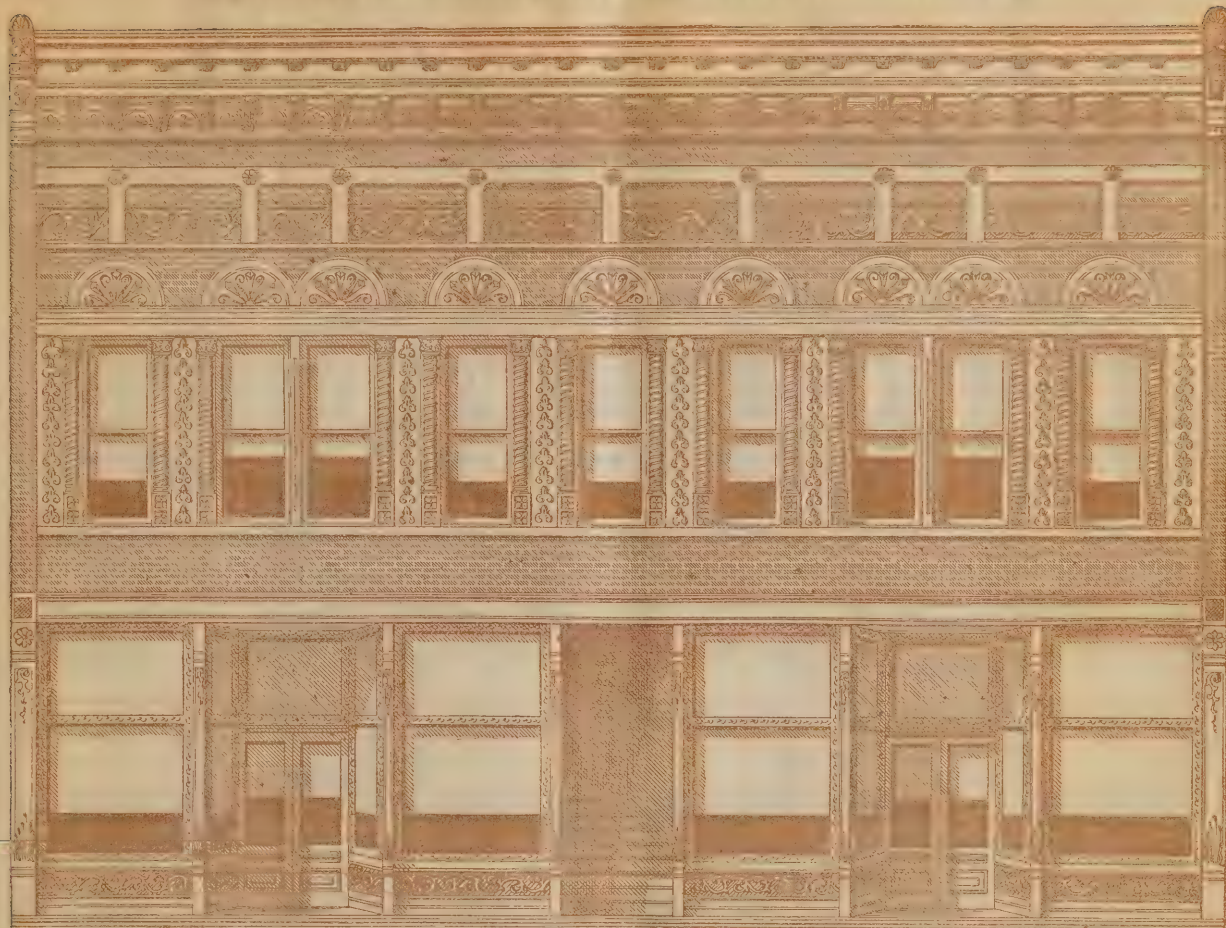

WHETHER OUR FINEST OR PLAINEST DESIGNS ARE USED THE MATERIAL IS ALWAYS THE BEST.

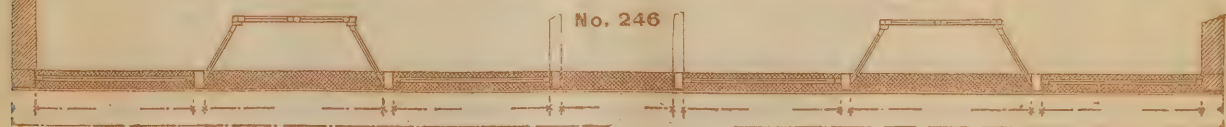

No. 245. THREE-STORY GALVANIZED IRON DOUBLE STORE FRONT.

The Galvanized Iron Store Fronts turned out by the Southern Foundry Co. are characterized by extreme neatness and proper proportions. It is customary, by many manufacturers, to put an excessive amount of ornamental stamping upon fronts of this kind with little regard to place and position, and thus the idea of a stone facade, which these fronts are made to represent is defeated. Our fronts are entirely correct in this particular.

OUR SHEET METAL WORK IS SUPERIOR IN QUALITY.

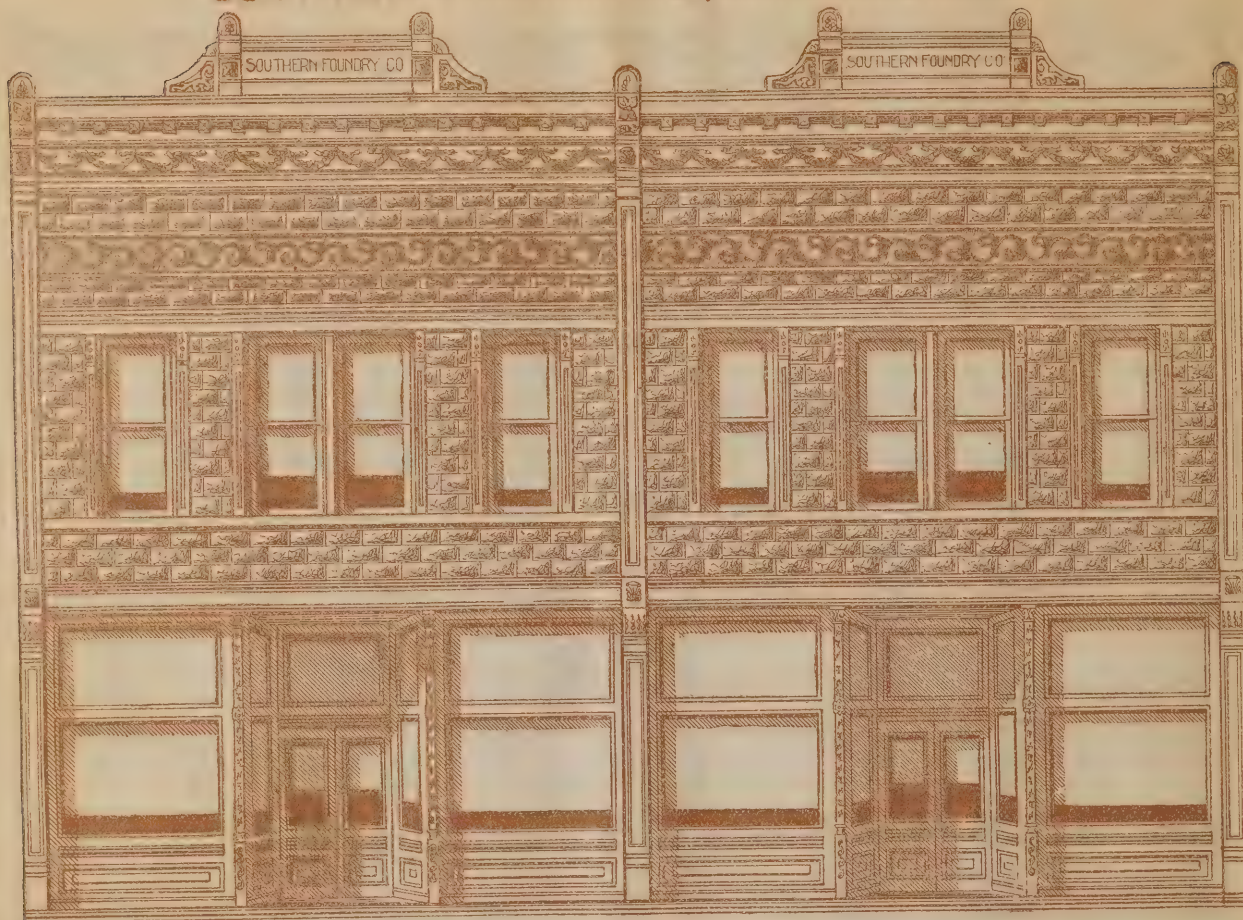

DOUBLE GALVANIZED IRON STORE FRONT WITH STAIRWAY.

This is one of the finest and most artistic store fronts made. The galvanized steel upper front is made in close imitation of carved stone and pressed brick, and when properly painted it presents a very handsome appearance. The show window sash in first story is shown in cast iron, beautifully carved, but wood sash may be used if desired. We will furnish to purchasers of our galvanized steel fronts color schemes for painting.

OUR DESIGNERS ARE ARTISTS WHO HAVE HAD MANY YEARS EXPERIENCE.

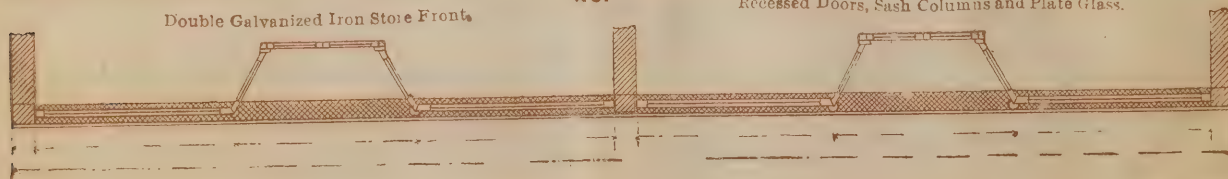

SOUTHERN FOUNDRY CO., OWENSBORO, KY.

Double Galvanized Iron Store Fronts

No. 247.

Recessed Doors, Sash Columns and Plate Glass.

The large columns in the first story are made of galvanized steel, and the sash columns at recesses are cast iron. The upper front is all made of galvanized steel, in imitation of stone. We furnish to customers color schemes for the proper painting of our fronts. Send measurements of proposed building, showing width outside the walls, and give height of stories, and state which design is preferred, and we will be able to send a suitable drawing and quote best prices on all material required for the front.

WE QUOTE ON ALL KINDS OF IRON WORK FOR BUILDINGS ON APPLICATION.

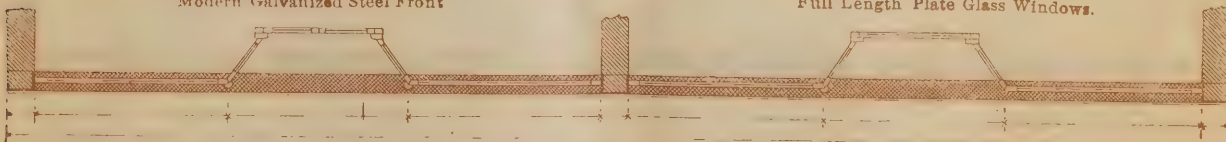

SOUTHERN FOUNDRY CO., OWENSBORO, KY.

No. 248.

Modern Galvanized Steel Front

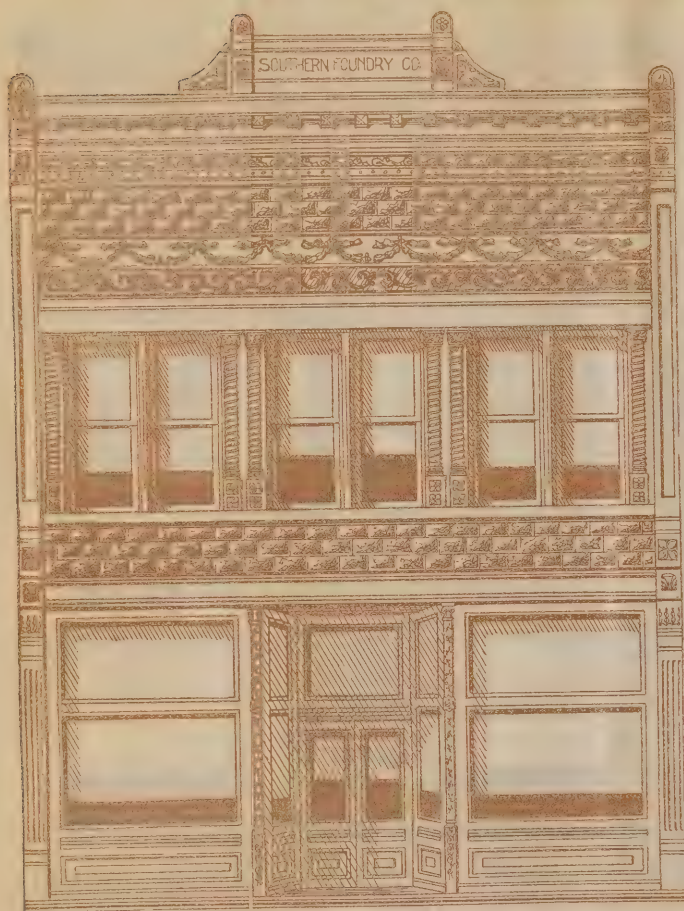

Full Length Plate Glass Windows.

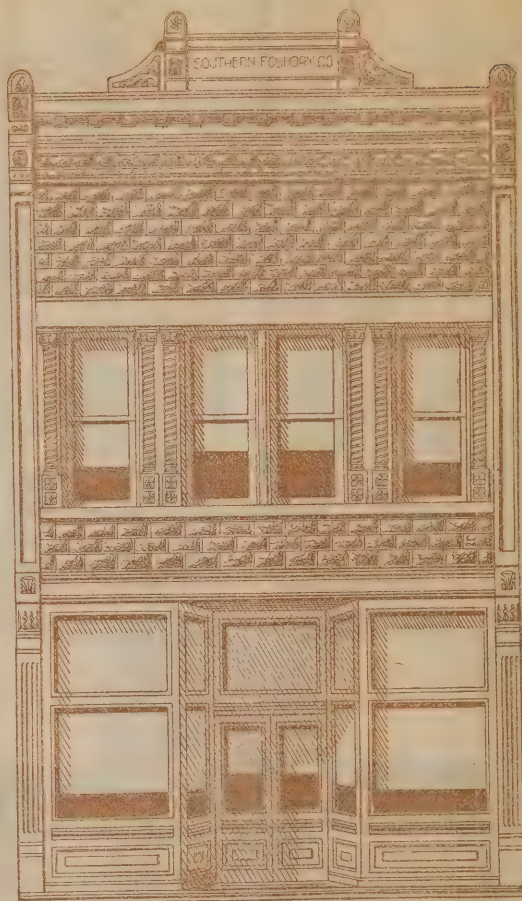

Many modern store fronts now have full length plate glass show windows, which give elegance and style to the display of goods in same. This style of show windows can be used in any of the fronts shown in this catalogue, when desired, or any other kind of show windows may be used in this front. Let us know what you want and we will fix up a drawing to suit.

WE HAVE A LARGE STOCK OF BEAMS AND STRUCTURAL STEEL ALWAYS ON HAND.

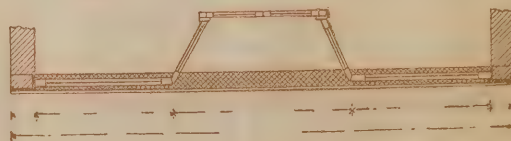

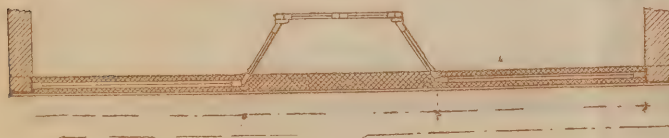

SOUTHERN FOUNDRY CO., OWENSBORO, KY.

No. 249. Wide Galvanized Steel Front.

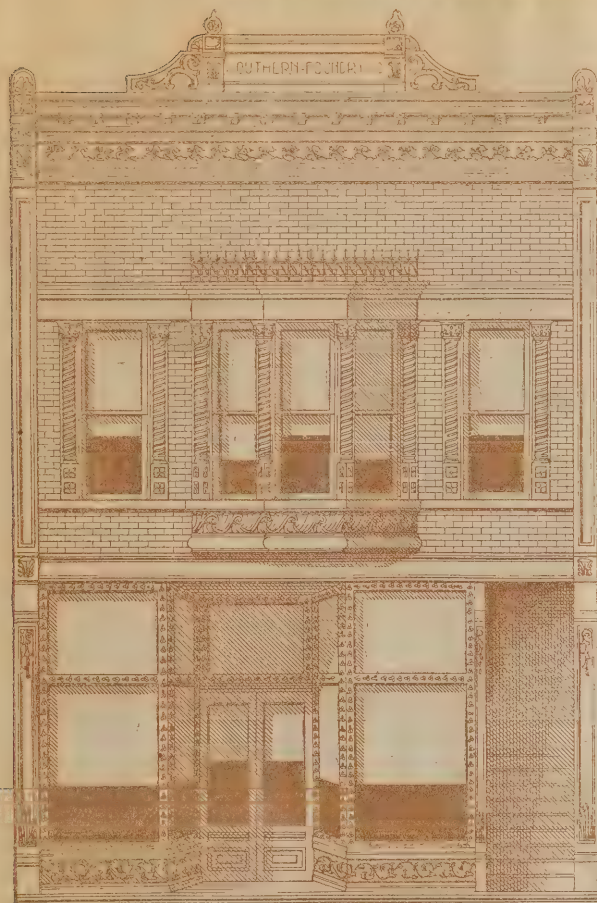

No. 250. Narrow Galvanized Steel Front.

The wide front shows cast iron sash columns at the corners of recessed wood work, and the narrow front shows the wood work mitered without protecting columns. Our Galvanized Steel Fronts are suited for either frame or brick buildings, and they make an elegant finish to any building. Select the style you want and let us quote you prices.

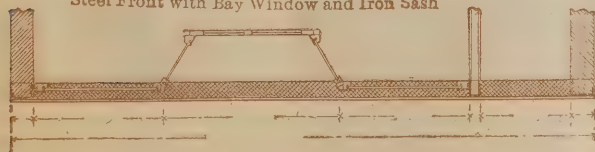

WE MAKE A SPECIALTY OF STEEL TRUSSES, GIRDERS AND STRUCTURAL SHAPES.

SOUTHERN FOUNDRY CO., OWENSBORO, KY.

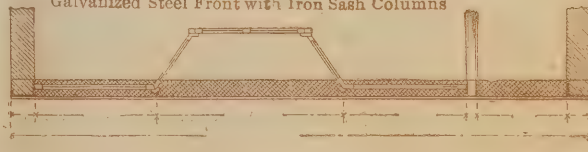

No. 251

Steel Front with Bay Window and Iron Sash

No. 252

Galvanized Steel Front with Iron Sash Columns

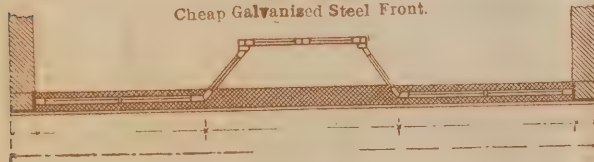

The use of cast iron show window sash has become so general in the larger towns and cities that we offer the finest and latest designs in this kind of work, enabling our customers to have the best style of modern front that can be procured. The metal show window sash is fitted carefully in our works, and no trouble is experienced in erecting it at the building. Full details and instructions are given, and any person can readily put up the work. Our improved iron show window sash can be applied to any store front, old or new. We will take pleasure in quoting prices on iron sash and glass separate from other work when desired.

WE PUT OURSELVES IN YOUR PLACE WHEN INSPECTING THE QUALITY OF WORK.

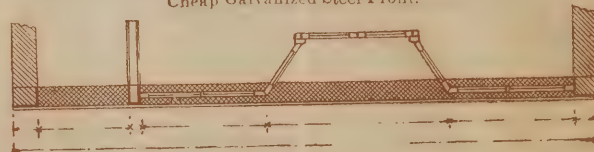

SOUTHERN FOUNDRY CO.. OWENSBORO, KY.

No. 253.
Cheap Galvanized Steel Front.

No. 254.
Cheap Galvanized Steel Front.

Many stores, especially in the smaller towns, are not elaborate enough to require a higher priced front, and in such cases one of these handsomely stamped prints will improve the appearance of the building very much, at small cost. Give us measurements of the house and get our figures on one of these low price fronts.

"SOUTHERN" FRONTS ARE ALL TRUE BLUE. THE BEST AND THE CHEAPEST.

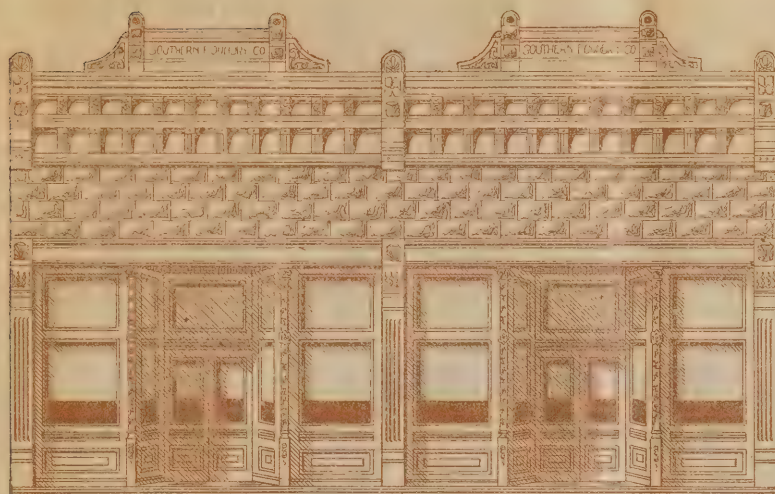

FIRE!

When the days of trouble come and the fire fiend sweeps away in an hour all the accumulations of years, it is a great convenience to find a company which can furnish a Store Front and Roofing, Siding and all kinds of Iron and Sheet Metal work for the building on short notice.

THE SOUTHERN FOUNDRY CO. offers their service and their splendid facilities in getting out anything required. Write us about your needs and we will help you out. Nobody can give you quicker service than we can.

OUR DESIGNS.

Whether your front be one story or two story we have designs to suit you. If you don't find what you want in the catalogue, then our engineer has it in his head and will produce it in a special-drawing if you will give us an inkling of your desires. Write us.

CAST IRON COLUMNS.

We show here a few of our stock designs of columns. We furnish these in any style desired, and keep constantly in stock a large variety of styles and lengths, and are prepared to make prompt shipments. It is not unusual for us to receive an order for a store front of stock design in the morning and ship it complete in the afternoon of the same day. Where columns are to be made we get them out promptly, as our foundry is in full operation every day.

**CAST IRON SILLS, LINTELS, HINGE-EYES, POST CAPS, BASE PLATES
AND WINDOW SILLS,**

We furnish every form of cast iron work for buildings, from sketches, description or architect's drawings. Our pattern department is equipped with the best machinery and experienced workmen, and we can turn out all material correctly and promptly.

STRUCTURAL STEEL WORK.

Our equipment of steam power and pneumatic tools for the construction of steel structural work is very complete, and our stock of steel shapes very large. We can turn out the largest jobs with great accuracy and promptness. Our big beam saws cut off the largest steel beams as if they were sticks of wood, and our large and powerful punches and shears cut and prepare the material with the greatest facility. No contract is too large for us to turn out with promptness, and no construction too intricate for us to execute with perfect accuracy. We will take pleasure in making suggestions to our correspondents who may wish to use some special forms of structural work, or put up a building with fire-proof construction. Write us freely regarding your wants.
